VOTING SECURITIES

The close of business on November 22, 2002 has been fixed as the record date for the determination of shareholders of the Company entitled to notice of and to vote at the Annual Meeting of Shareholders. At the close of the record date, there were 1,969,088 shares of common stock outstanding and each such share is entitled to one vote. To the Company's knowledge, no person is the beneficial owner of more than five percent of the issued and outstanding common stock of the Company.

A majority of votes entitled to be cast on matters to be considered at the Annual Meeting constitutes a quorum. If a share is represented for any purpose at the Annual Meeting, it is deemed to be present for purposes of establishing a quorum. Abstentions and shares held of record by a broker or its nominee ("Broker Shares") that are voted on any matter are included in determining the number of votes present or represented at the Annual Meeting. Conversely, Broker Shares that are not voted on any matter will not be included in determining whether a quorum is present. If a quorum is established, directors will be elected by a plurality of the votes cast by shares entitled to vote at the Annual Meeting. Votes that are withheld and Broker Shares that are not voted in the election of directors will not be included in determining the number of votes cast.

The Company will appoint one or more inspectors to act as a Committee on Credentials at the Annual Meeting and to make a written report thereof. The inspectors will ascertain the number of shares outstanding and the voting power of each, determine the shares represented at the meeting and the validity of proxies and ballots, count all votes and ballots, and perform certain other duties as required by law. As a matter of policy, proxies, ballots and voting tabulations that identify individual shareholders are kept private by the Company. Such documents are available for examination only by the inspectors of election and certain personnel associated with processing proxy cards and tabulating votes. The vote of any shareholder is not disclosed except as may be necessary to meet legal requirements.

RETIREMENT PLAN

Resources has in effect a noncontributory Retirement Plan. The costs of benefits under the Plan, which are borne by Resources, are computed actuarially and defrayed by earnings from the Plan's investments and/or Resources' annual contributions. The Plan generally provides for the monthly payment, at normal retirement age 65, of the greater of (a) the participant's accrued benefit as of December 31, 1988 under the formula then in effect or (b) the sum of one-twelfth of (1) plus (2) minus (3) as follows:

- (1) 1.2% of the participant's average compensation for his highest consecutive sixty months of service multiplied by years of credited service up to thirty years,
- (2) .65% of the participant's average compensation for his highest consecutive sixty months of service in excess of covered compensation (generally defined as the average of Social Security wage bases over a participant's assumed working lifetime) multiplied by years of credited service up to thirty years, and
- (3) the participant's balance, if any, from the Company's former profit sharing plan.

Early retirement with reduced monthly benefits is available at age 55 after ten years' service. Provisions also are made for vesting of benefits after five years of service and for disability and death benefits. All employees who have completed one year of service to the Company and are credited with at least 1,000 hours of service in a Plan year are eligible to participate in the Plan. At age 65, for Plan purposes, Mr. Williamson and Mr. D'Orazio will have 28 and 32 credited years of service, respectively.

The compensation covered by the Plan includes the total of all amounts paid to a participant by the Company for personal services reported on the participant's federal income tax withholding statement (Form W-2), up to certain

Edgar Filing: RGC RESOURCES INC - Form DEF 14A

statutory limits. For plan years beginning January 1, 2002 and 2003, these earnings are limited to \$200,000.

1 The benefit amounts assume the employee is retiring at normal retirement age (age 65). The benefit amounts listed in the table are computed as a straight life annuity. No offset to pension benefits due to the Profit-Sharing Plan (which has been converted into the 401(k) Plan) is reflected. Benefits are not reduced by Social Security.

CHANGE-IN-CONTROL ARRANGEMENTS

On March 1, 2001, the Company and Mr. John B. Williamson, III entered into a Change in Control Agreement that provides certain benefits to him in the event of a "Change in Control." For purposes of this agreement, a "Change in Control" occurs when (i) any person or entity becomes the beneficial owner of at least 50% of the combined voting power of the Company's voting securities; (ii) any person or entity becomes the beneficial owner of at least 50% of the voting securities of the surviving entity following a merger, recapitalization, reorganization, consolidation or sale of assets by the Company; or (iii) the Company is liquidated or sells substantially all of its assets. In the event that Mr. Williamson's employment with the Company is terminated within three years of the date of a Change in Control, unless the termination is (a) because of his death or disability, (b) for Cause (as defined in the agreement) or (c) by him other than for Good Reason (as defined in the agreement), then he will receive a severance payment (the "Severance Payment") equal to 2.0 times his average annual compensation over the prior five tax years. The Severance Payment will be reduced to the extent necessary to avoid certain federal excise taxes. Also in such event, the Company will continue his life insurance, medical, health and accident and disability plans, programs or arrangements until the earlier of two years after the date of the Change in Control, his death, or his full-time employment. The agreement does not require Mr. Williamson to seek employment to mitigate any payments or benefits provided thereunder. The Company also entered into identical Change in Control Agreements with Mr. John S. D'Orazio on March 1, 2001 and with Mr. Howard T. Lyon and Ms. Dale P. Moore on May 1, 2000, except that the Severance Payment equal to 1.5 times his applicable average annual compensation and payable only if his or her employment is

Edgar Filing: RGC RESOURCES INC - Form DEF 14A

terminated within 24 months of a Change in Control.

REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS

The Compensation Committee (the "Committee"), which is made up of six members of the Board of Directors who are not officers or employees of Resources, is responsible for setting and administering the policies that govern the annual compensation paid to the executive officers of the Company, including the Chief Executive Officer.

In fiscal 2002, annual salary continued to be the primary component of compensation for executive officers of the Company. This is based in large part on concern that external factors beyond the control of Company executives, such as weather and regulatory decisions, may have a significant impact on corporate performance.

8

The Committee recommends, for approval by the Board of Directors, the annual salaries of executive officers. Salaries are based on the respective positions held by the executive officers, including their accomplishments, level of responsibility and experience and the relationship of such salaries to the salaries of other Company managers and employees. In this regard, the Committee reviews the Chief Executive Officer's recommendations on compensation of the other executive officers and information concerning executive compensation at other companies in the American Gas Association. Such other companies are included in (but do not solely comprise) both of the peer indices reflected in the Performance Graph on page 10. The Committee also considers overall corporate performance, customer service and satisfaction, relationships with regulatory agencies and the ability to manage and maintain a competent work force in preparing its compensation recommendations.

Pursuant to the Company's Stock Bonus Plan, the Committee approved the payment in fiscal 2002 of bonuses to the CEO and other executive officers of the Company for outstanding performance during the fiscal year 2001. The Stock Bonus Plan is intended to allow the Board of Directors to award individual or collective superior performance that has resulted in enhanced shareholder value or returns and to encourage increased ownership of Company common stock by officers and management. The Stock Bonus Plan is administered by the Committee, which considers recommendations from the Company's President. The Company's bonus award proposals are subject to approval of the Board of Directors. Under the Stock Bonus Plan, executive officers are encouraged to own a position in the Company's common stock of at least 50% of the value of their annual salary. To promote this policy, the Plan provides that all officers with stock ownership positions below 50% of the value of their annual salaries must, unless approved by the Committee, receive no less than 50% of any performance bonus in the form of Company common stock. Bonus amounts, if any, for a fiscal year will generally be determined in the January following that fiscal year end. Bonus award determinations under the Stock Bonus Plan for performance in the 2001 fiscal year were based on the performance of the Company, combined with an analysis of the individual contributions of officers receiving the bonuses to the overall performance of the Company.

The Company has a Key Employee Stock Option Plan, which is intended to provide the Company's executive officers with long-term (ten-year) incentives and rewards tied to the price of Resources' common stock. The Committee believes that stock options will assist the Company in attracting, maintaining and motivating officers and other key employees of the Company, upon whose judgment, initiative and efforts the Company depends, by providing such persons with the

Edgar Filing: RGC RESOURCES INC - Form DEF 14A

opportunity to acquire an equity interest in Resources. Stock options are used to provide executive officers additional incentive to use their best efforts and superior performances to promote the best interest of Resources and the shareholders.

In making its recommendation regarding the 2002 compensation of the Chief Executive Officer, the Committee considered all of the criteria above. Specific consideration also was given to the Chief Executive Officer's efforts toward cost containment, the Company's earnings and shareholder and customer growth in the preceding fiscal year. During 2002, Mr. Williamson received a bonus of \$10,000 for his performance during the fiscal year 2001, which he invested in Company common stock through a payroll deduction program over a seven-month period. The amount of the bonus was determined based upon Mr. Williamson's success during fiscal 2001 in monitoring operational and capital budgets for maximum cost efficiency and monitoring his management team's performance in regard to corporate objectives. The control of costs, operational and financing, helped to stabilize earnings for Resources.

The following graph compares the yearly percentage change and the cumulative total of shareholder return on Resources' common stock with the cumulative return on the Standard and Poor's Utilities Index (the "S&P Utilities Index") and the Media General Gas Index for the five-year period commencing on September 30, 1997 and ending on September 30, 2002. The Media General Gas Index, published as Industry Group Index No. 912 by Media General Finance Services of Richmond, VA, is being substituted for the Edward Jones Natural Gas Index, which is no longer being prepared. These comparisons assume the investment of \$100 in the Company's common stock and each of the indices on September 30, 1997 and the reinvestment of dividends.

The chair of the Audit Committee receives an additional \$1,200 annually, and the chairs of the other committees receive an additional \$800 annually. Mr. Williamson is not compensated for attendance at Board and Committee meetings and does not receive \$7,200 per year for service as a Board member. However, the fee for any Committee meeting held the same day as a Board meeting is \$350.

RESTRICTED STOCK PLAN FOR OUTSIDE DIRECTORS

The Board of Directors of the Company implemented the Restricted Stock Plan for Outside Directors effective January 27, 1997. The Plan is applicable to not more than 50,000 shares of Resources' common stock.

Under the Plan, a minimum of 40% of the monthly retainer fee paid to each non-employee director of Resources is paid in shares of common stock ("Restricted Stock"). The number of shares of Restricted Stock is calculated

Edgar Filing: RGC RESOURCES INC - Form DEF 14A

each month based on the closing sales price of Resources' common stock on the Nasdaq National Market on the first day of the month, if the first day of the month is a trading day, or if not, the first trading day prior to the first day of the month. Beginning in fiscal 1998, a participant can, subject to approval of the Board, elect to receive up to 100% of his retainer fee for the fiscal year in Restricted Stock. Such election cannot be revoked or amended during the fiscal year.

The shares of Restricted Stock of Resources issued under the Plan will vest only in the case of a participant's death, disability, retirement (including not standing for reelection to the Board), or in the event of a change in control of Resources. There is no option to take cash in lieu of stock upon vesting of shares under the Plan. The Restricted Stock may not be sold, transferred, assigned or pledged by the participant until the shares have vested under the terms of the Plan. At the time the Restricted Stock vests, a certificate for vested shares will be delivered to the participant or the participant's beneficiary.

11

The shares of Restricted Stock will be forfeited to Resources by a participant's voluntary resignation during his term on the Board or removal for cause as a director. Subject to the terms of the Plan, a participant, as owner of the Restricted Stock, has all rights of a shareholder, including but not limited to, voting rights, the right to receive cash or stock dividends, and the right to participate in any capital adjustment of Resources. Resources requires that all dividends or other distributions paid on shares of Restricted Stock be automatically sequestered and reinvested on an immediate or deferred basis in additional Restricted Stock.

All directors, except Mr. Williamson (who does not qualify as an outside director), participated in the Plan in fiscal 2002. The directors received a total of 2,531.874 shares of Restricted Stock in fiscal 2002, valued at \$45,748.43. (This value was calculated using the closing price of \$18.069 per share of Company's common stock on September 30, 2002).

REPORT OF THE AUDIT COMMITTEE

The Audit Committee of the RGC Resources, Inc. Board of Directors (the "Committee") is composed of six independent directors and operates under a written charter adopted by the Board of Directors.

Management is responsible for the Company's internal controls and the financial reporting process. The independent accountants of the Company, Deloitte & Touche LLP, are responsible for performing an independent audit of the Company's consolidated financial statements in accordance with generally accepted auditing standards and to issue a report thereon. The Committee's

responsibility is to monitor and oversee these processes.

In this context, the Committee has met and held discussions with management and the independent accountants. Management represented to the Committee that the Company's consolidated financial statements were prepared in accordance with generally accepted accounting principles, and the Committee has reviewed and discussed the consolidated audited financial statements with management and the independent accountants. The Committee discussed with the independent accountants matters required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees), which includes, among other things:

- o methods used to account for significant unusual transactions;
- o the effect of significant accounting policies in controversial or emerging areas for which there is a lack of authoritative guidance or consensus;
- o the process used by management in formulating particularly sensitive accounting estimates and the basis for the auditors' conclusions regarding the reasonableness of these estimates; and
- o disagreements with management over the application of accounting principles, the basis for management's accounting estimates, and the disclosures in the financial statements.

The independent accountants also provided to the Committee the written disclosures and the letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and the Committee discussed with the independent accountants that firm's independence from RGC Resources, Inc. and its management.

Based on the Committee's discussion with management and the independent accountants and the Committee's review of the representation of management regarding the audited financial statements and of the report of the independent accountants to the Committee, the Committee recommended to the Board of Directors, and the Board has approved, that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended September 30, 2002, for filing with the Securities and Exchange Commission.

Financial Information Systems, Design, and Implementation Fees	\$ -0-
All Other Fees	\$ 50,500

EXECUTIVE & NOMINATING COMMITTEE

The Executive & Nominating Committee of the Board of Directors, which is composed of Messrs. Avis, Ellett, Farmer, Layman (Chair) and Robertson is empowered to exercise all authority of the Board of Directors, except with respect to matters reserved for the Board by Virginia law. Thus, in the absence of nominations by the Board of Directors, this Committee may nominate persons as management's nominees for election to the Board of Directors by the shareholders at Resources' annual meeting. This Committee met one time during fiscal year 2002. The Board of Directors does not have a standing nominating committee as such.

COMPENSATION COMMITTEE

The Compensation Committee of the Board of Directors is composed of Messrs. Avis (Chair), Boxley, Ellett, Goodlatte, Layman and Smith. This Committee meets as necessary to consider and make recommendations to the Board of Directors concerning the salaries of certain executive officers and management employees of the Company. This Committee met one time during the 2002 fiscal year.

MEETINGS OF THE BOARD AND COMMITTEES

The Board of Directors met twelve times during the 2002 fiscal year. The incumbent members of the Board attended in fiscal year 2002 at least 75 percent of the aggregate of the total number of meetings of the Board and the total number of meetings held by all Committees of the Board on which each served.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange act of 1934 requires the Company's directors, executive officers and owners of more than 10% of its common stock to file certain reports of initial ownership and changes in ownership (Forms 3, 4 and 5) with the Securities and Exchange Commission. Based solely on a review of certain written representations of its directors and executive officers regarding Form 5's and of copies of such Forms 3, 4, and 5 (including amendments thereto) furnished to the Company, the Company believes that its executive officers and directors complied with Section 16(a)'s filing requirements during fiscal 2002. (The Company does not have any such 10% owners.)
