* Portfolio securities and other financial instruments for which market quotations are readily available are stated at market value. The Fund's

Edgar Filing: PIMCO MUNICIPAL INCOME FUND II - Form N-Q

investments are valued daily by an independent pricing service. Prices obtained from an independent pricing service use information provided by market makers or estimates of market values obtained from yield data relating to investments or securities with similar characteristics. Short-term investments maturing in sixty days or less are valued at amortized cost, if their original maturity was 60 days or less or by amortizing their value on the 61st day prior to maturity, if the original term to maturity exceeded 60 days. Securities for which market quotations are not readily available or if a development/event occurs that may significantly impact the value of the security may be fair valued, pursuant to guidelines established by the Board of Trustees. The prices used by the Fund to value securities may differ from the value that would be realized if the securities were sold. The Fund's net asset value is determined daily at the close of regular trading (normally 4:00 p.m. Eastern time) on the New York Stock Exchange.
