SHAREHOLDER LETTER

FIRST TRUST VALUE LINE(R) 100 FUND (FVL)
ANNUAL REPORT
DECEMBER 31, 2005

Dear Shareholders:

We are pleased to present this annual report to shareholders of the First Trust Value Line(R) 100 Fund (AMEX: FVL). The Fund's objective is to provide capital appreciation. It seeks to outperform the S&P 500 Index by adhering to a disciplined strategy of investing in a diversified portfolio of the 100 common stocks ranked #1 in the Value Line(R) Timeliness™ Ranking System. For the fiscal year ended December 31, 2005, FVL posted a net asset value (NAV) total return of 11.9% and a market value total return of 7.5%. This compared to a gain of 4.8% for the S&P 500 Index. The Fund's market price closed at \$15.62 per share on December 31, 2005, above its IPO price of \$15.00 per share.

This was a year marked by significant events. The markets were confronted with many obstacles including rising energy and oil prices, several short-term rate increases and natural disasters. In spite of some of the difficulties of this past year, the American economy continued to grow, posting an overall growth rate of 3.5% for 2005, although this is down from 4.2% for 2004. According to U.S. News & World Report, since April 2003 the economy has created a net 5.1 million new jobs and unemployment, which was 4.9% in December 2005, is lower than the average for the 1970s, 1980s and 1990s. For calendar year 2005, core inflation was only 2.2%, and oil prices have come down from their post-hurricane peaks.

It is difficult to predict what events will take place in the future or how the markets and economy will respond. One of the few certainties of equity investing is that returns will fluctuate over time. We believe the key to long-term success relies on discipline such as that employed by the Fund. I encourage you to read the commentary from Bob Carey, the Chief Investment Officer of First Trust Advisors L.P., found on the following pages. It includes a review of the Fund's performance and Bob's insight on the markets.

We thank you for your confidence in First Trust Advisors L.P. and will work diligently to keep earning it.

Sincerely,

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

PORTFOLIO COMMENTARY

OVERVIEW

The First Trust Value Line(R) 100 Fund ("FVL" or the "Fund") posted a market price total return of 7.5% for the fiscal year ended December 31, 2005. Its net asset value ("NAV") total return was 11.9% for the same period. Over the same one-year period, the S&P 500 Index, S&P 400 (mid-cap) Index and S&P 600 (small-cap) Index gained 4.8%, 12.5% and 7.7%, respectively. The Fund distributed \$1.804 per share in short-term capital gains and \$1.008 per share in long-term capital gains during fiscal year 2005. FVL traded at a 9.0% discount to its NAV on December 31, 2005.

Following is a review of the portfolio strategy and composition, investment environment and performance results of FVL for the fiscal year ended December 31, 2005.

INVESTMENT STRATEGY

The Fund adheres to a disciplined strategy of investing in the 100 common stocks ranked #1 in the Value Line(R) Timeliness(TM) Ranking System. The Value Line(R) Timeliness(TM) Ranking System was introduced in 1965. Each week, Value Line(R) applies its Timeliness(TM) Ranking System to screen a wide array of data using a series of proprietary calculations to rank each of the approximately 1,700 stocks in the Value Line(R) universe for expected price performance over the next 6 to 12 months. Only 100 stocks are given Value Line's #1 ranking for Timeliness(TM) at any given time. Each week the Fund makes portfolio adjustments to match changes initiated by Value Line(R) to the 100 stocks ranked #1 for Timeliness(TM). When a new stock attains a #1 ranking, it is added to the Fund's portfolio and stocks no longer ranked #1 are removed from the Fund's portfolio.

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

Over the last three years, including 2005, the average number of stocks changed in a given year was 4.4 stocks. The Fund rebalances its holdings on a quarterly basis so that each stock is equally weighted on the rebalancing date.

DISTRIBUTIONS

On June 15, 2005, the Fund distributed capital gains of \$0.412 per share, which represented \$0.314 in short-term capital gains and \$0.098 per share in long-term capital gains. On December 30, 2005, the Fund distributed capital gains of \$2.40 per share, which represented \$1.49 in short-term capital gains and \$0.91 per share in long-term capital gains.

COMPOSITION OF THE FUND

The Fund had a large capitalization orientation to its portfolio holdings as of December 31, 2005. The average market capitalization of the issuers of the stocks in the portfolio was approximately \$13.8 billion, up from \$11.7 billion at the end of 2004 and \$9.7 billion at the end of 2003. The breakdown of the 100 stocks in the portfolio as of December 31, 2005, was as follows: large-cap stocks (34), mid-cap stocks (35) and small-cap stocks (31). The breakdown of the 100 stocks in the portfolio as of December 31, 2004, was as follows: large-cap stocks (26), mid-cap stocks (35) and small-cap stocks (39). The Fund's beta averaged about 1.12 for 2005, according to Bloomberg. That implies a market volatility or risk level slightly higher than the overall market.

MARKET AND ECONOMIC OVERVIEW

In 2005, the U.S. equity markets posted modest positive returns on the whole. Although returns were not as good as those in the last couple of years, the markets performed rather well. Throughout the year, the markets were challenged by record oil and natural gas prices and inflationary pressures. Another negative was steady increases in short-term interest rates, which paved the way for an inverted yield curve late in the year. This rare occurrence is considered to be a predictor of economic recession although at this point, we do not anticipate such an economic reversal in 2006.

Page 2

PORTFOLIO COMMENTARY - (CONTINUED)

In spite of significantly higher energy prices and interest rates that are sharply higher than one year ago, the economy continues to grow, turning in a strong performance in the summer (July - September) with the fastest growth pace in 1 1/2 years, according to the Commerce Department. Real Gross Domestic Product, the output of goods and services produced by labor and property located in the United States, increased at an annual rate of 4.1% in the third quarter of 2005, according to final estimates released by the Bureau of Economic Analysis.

Strong productivity gains have helped curb inflation. Despite the sharp rise in commodity prices in 2005, the core CPI rate, as of December 2005, was just 2.2%. Higher production costs have been offset to a large degree by productivity gains. Since the last recession ended in the fourth quarter of 2001, productivity gains have averaged 3.4% annually, far exceeding any similar period since the 1960s.

Strong corporate earnings were another factor that positively influenced the stock markets. According to Standard & Poor's, fourth quarter 2005 earnings on

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

the S&P 500 Index of \$20.62, or \$186 billion in aggregate, will represent a 14.9% gain over the \$17.95 reported for the fourth quarter of 2004 - marking the 15th consecutive quarter of double-digit earnings gains for the S&P 500 Index.

Another positive for the markets was an increase in corporate mergers and acquisitions (M&A). M&A activity surpassed \$1 trillion for 2005, according to Thomson Financial. Companies have announced 8,489 M&A deals valued at roughly \$1.1 trillion, a level not seen since 2000.

The oil and energy sectors significantly outperformed other sectors of the market in large part due to high energy prices. Correlating to this event has been a notable underperformance by the auto and consumer discretionary sectors, which are most affected by high prices of oil and gasoline.

IN CLOSING

As we look out to a new year, we are encouraged that core inflation remains stable despite significantly higher oil prices and the economy continues to grow. The S&P 500 Index set records in 2005 including both earnings per share and dividend payouts. It will be interesting to monitor the progress and see whether this positive momentum will continue into 2006.

FIRST TRUST VALUE LINE(R) 100 FUND
DECEMBER 31, 2005

1. FUND DESCRIPTION

First Trust Value Line(R) 100 Fund (the "Fund") is a diversified closed-end management investment company organized as a Massachusetts business trust on April 18, 2003 and is registered with the Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended (the "1940 Act"). The Fund trades under the ticker symbol FVL on the American Stock Exchange.

The Fund's investment objective is to provide capital appreciation. The Fund seeks to outperform the Standard & Poor's 500 Composite Stock Price Index (the "S&P 500 Index") by adhering to a disciplined strategy of investing in a diversified portfolio of the 100 common stocks ranked #1 in Value Line's(R) Timeliness(TM) Ranking System. There can be no assurance that the Fund's investment objective will be achieved.

The Value Line(R) Timeliness(TM) Ranking System was introduced in its present form in 1965. Each week, Value Line(R) Publishing, Inc. ("Value Line(R) ") screens a wide array of data, using a series of proprietary calculations, to rank each of the approximately 1,700 stocks in the Value Line(R) universe from #1 (highest) to #5 (lowest) based on their expected price performance relative to the other stocks in the universe over the following 6 to 12 months. At any one time, only 100 stocks are ranked #1 in the Value Line(R) Timeliness(TM) Ranking System.

The Fund invests substantially all, but in no event less than 80%, of its net assets in the stocks that are ranked #1 in the Value Line(R) Timeliness(TM) Ranking System. Each week, the Fund will make portfolio adjustments to match the changes made to the #1 ranked stocks by Value Line(R). The Fund also rebalances its holdings on a quarterly basis so that each stock is equally weighted on the rebalancing date.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

A. PORTFOLIO VALUATION:

The Fund determines the net asset value ("NAV") of its shares daily, as of the close of regular session trading on the New York Stock Exchange ("NYSE"), normally 4:00 p.m. Eastern time, on each day the NYSE is open for trading. The NAV is computed by dividing the value of all assets of the Fund (including accrued interest and dividends), less all liabilities (including accrued expenses and dividends declared but unpaid), by the total number of shares outstanding.

The Fund's investments are valued at market value or, in the absence of market value with respect to any portfolio securities, at fair value according to procedures adopted by the Fund's Board of Trustees. Portfolio securities listed on any exchange other than the NASDAQ National Market ("NASDAQ") are valued at the last sale price on the business day as of which such value is being determined. If there has been no sale on such day, the securities are valued at the mean of the most recent bid and asked prices on such day. Securities traded on the NASDAQ are valued at the NASDAQ Official Closing Price as determined by

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

NASDAQ. Portfolio securities traded on more than one securities exchange are valued at the last sale price on the business day as of which such value is being determined at the close of the exchange representing the principal market for such securities. Portfolio securities traded in the over-the-counter market, but excluding securities trading on the NASDAQ, are valued at the closing bid prices. Short-term investments that mature in less than 60 days are valued at amortized cost.

Foreign securities traded outside the United States are generally valued as of the time their trading is complete, which is usually different from the close of the NYSE. Occasionally, events affecting the value of such securities may occur between such times and the close of the NYSE that will not always be reflected in such securities' value. If events materially affecting the value of such securities occur during such period, these securities will be valued at their fair value according to procedures adopted by the Fund's Board of Trustees. All securities and other assets of the Fund denominated in foreign currencies will be converted to U.S. dollars using exchange rates in effect at the time of valuation.

B. SECURITIES TRANSACTIONS AND INVESTMENT INCOME:

Securities transactions are recorded as of the trade date. Realized gains and losses from securities transactions are recorded on the identified cost basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Page 13

NOTES TO FINANCIAL STATEMENTS - (CONTINUED)

FIRST TRUST VALUE LINE(R) 100 FUND DECEMBER 31, 2005

Securities purchased or sold on a when-issued or delayed-delivery basis may be settled a month or more after the trade date; interest income on such securities is not accrued until settlement date. The Fund instructs the custodian to segregate assets of the Fund with a current value at least equal to the amount of its when-issued purchase commitments.

C. FOREIGN CURRENCY:

The books and records of the Fund are maintained in U.S. Dollars. Foreign currencies, investments and other assets and liabilities are translated into U.S. Dollars at the exchange rates prevailing at the end of the period. Purchases and sales of investment securities and items of income and expense are translated on the respective dates of such transactions. Net realized foreign currency gains and losses include the effect of changes in exchange rates between trade date and settlement date on investment security transactions, foreign currency transactions and interest and dividends received. The portion of foreign currency gains and losses related to fluctuation in exchange rates between the initial purchase trade date and subsequent sale trade date is included in "Net realized gain/(loss) on foreign currency transactions" on the Statement of Operations.

D. DIVIDENDS AND DISTRIBUTIONS TO SHAREHOLDERS:

Dividends from net investment income and net realized long-term and short-term capital gains of the Fund will be paid at least annually or as the Board of

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

Trustees may determine from time to time. Distributions will automatically be reinvested into additional Common Shares pursuant to the Fund's Dividend Reinvestment Plan unless cash distributions are elected by the shareholder.

Distributions from income and capital gains are determined in accordance with the income tax regulations, which may differ from accounting principles generally accepted in the United States of America. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund. Permanent differences incurred during the year ended December 31, 2005, resulting in book and tax accounting differences, have been reclassified at year end to reflect a decrease to accumulated net investment loss by \$1,352,309 and a decrease in accumulated net realized gains on investments sold by \$1,352,309. Net assets were not affected by this reclassification.

The tax character of distributions paid during the fiscal years ended December 31, 2005 and December 31, 2004 is as follows:

Distributions paid from:

	2005	2004
	----	----
Ordinary Income	\$31,551,960	\$7,345,800
Long-Term Capital Gains	\$17,629,920	\$4,197,600

As of December 31, 2005, the components of distributable earnings on a tax basis were as follows:

Undistributed Ordinary Income	\$ 9,545,640
Undistributed Long-Term Capital Gains	\$ 4,903,922
Net Unrealized Appreciation	\$35,573,248

E. INCOME TAXES:

The Fund intends to continue to qualify as a regulated investment company by complying with the requirements under Subchapter M of the Internal Revenue Code of 1986, as amended, and by distributing substantially all of its net investment income and net realized gains to shareholders. Accordingly, no provision has been made for federal or state income taxes.

F. EXPENSES:

The Fund pays all expenses directly related to its operations. First Trust Advisors L.P. ("First Trust") has entered into a non-exclusive license agreement with Value Line(R) Publishing, Inc. which allows for the use by First Trust of the Value Line(R) Timeliness(TM) Ranking System and certain trademarks and trade names of Value Line(R) Publishing, Inc. The Fund is a sub-licensee to this license agreement. In exchange, Value Line(R) Publishing, Inc. receives an annual fee, payable on a quarterly basis, equal to 10 basis points of the Fund's average gross daily assets during such calendar quarter. This license fee is paid by the Fund to First Trust, which in turn pays Value Line(R) Publishing, Inc. The terms of the license agreement provide that it shall continue in effect for a term of one year and will be automatically renewed for successive one year terms unless either party elects not to renew the agreement.

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

FIRST TRUST VALUE LINE(R) 100 FUND
DECEMBER 31, 2005

G. ORGANIZATION AND OFFERING COSTS:

Organization costs consist of costs incurred to establish the Fund and enable it to legally do business. These costs included filing fees, listing fees, legal services pertaining to the organization of the business and audit fees relating to the initial registration and auditing the initial statement of assets and liabilities, among other fees. Offering costs consisted of legal fees pertaining to the Fund's shares offered for sale, registration fees, underwriting fees, and printing of the initial prospectus, among other fees. First Trust has paid all organization expenses and offering costs of the Fund (other than sales load) that exceeded \$0.03 per Common Share.

During the year ended December 31, 2004, it was determined that actual offering costs from the initial public offering of the Fund's Common Shares in June 2003 were less than the estimated offering costs by \$1,161. Therefore, paid-in capital in excess of par value of Common Shares was increased by this amount.

3. INVESTMENT ADVISORY FEE AND OTHER AFFILIATED TRANSACTIONS

First Trust is a limited partnership with one limited partner, Grace Partners of DuPage L.P., and one general partner, The Charger Corporation. First Trust serves as investment advisor to the Fund pursuant to an Investment Management Agreement. First Trust is responsible for implementing the Fund's overall investment strategy, including the allocation and periodic reallocation of the portion of the Fund's assets to be invested in common stocks, managing the Fund's business affairs and certain administrative services necessary for the management of the Fund. For these services, First Trust is entitled to a monthly fee calculated at an annual rate of 0.65% of the Fund's average daily net assets.

PFPC Inc. ("PFPC"), an indirect, majority-owned subsidiary of The PNC Financial Services Group, Inc., serves as the Fund's Administrator and Transfer Agent in accordance with certain fee arrangements. PFPC Trust Company, an indirect, majority-owned subsidiary of The PNC Financial Services Group, Inc., serves as the Fund's Custodian in accordance with certain fee arrangements.

The Fund paid each Trustee who is not an officer or employee of First Trust or any of its affiliates an annual retainer of \$10,000 which included compensation for all regular quarterly board meetings and regular committee meetings. No additional meeting fees were paid in connection with regular quarterly board meetings or regular committee meetings. Additional fees of \$1,000 and \$500 were paid to non-interested Trustees for special board meetings and non-regular committee meetings, respectively. These additional fees were shared by the funds in the First Trust fund complex that participated in the particular meeting and are not per fund fees. Trustees are also reimbursed for travel and out-of-pocket expenses in connection with all meetings. Effective January 1, 2006, the non-interested Trustees will no longer be paid additional fees of \$1,000 and \$500 for special board meetings and non-regular committee meetings, respectively.

4. PURCHASES AND SALES OF SECURITIES

Cost of purchases and proceeds from sales of investment securities, excluding short-term investments, for the year ended December 31, 2005, were \$755,196,724 and \$806,316,195, respectively.

As of December 31, 2005, the aggregate gross unrealized appreciation for all securities in which there was an excess of value over tax cost was \$39,984,824, and the aggregate gross unrealized depreciation for all securities in which

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

there was an excess of tax cost over value was \$4,411,576.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

TO THE BOARD OF TRUSTEES AND SHAREHOLDERS OF FIRST TRUST VALUE LINE(R) 100 FUND:

We have audited the accompanying statement of assets and liabilities of First Trust Value Line 100(R) Fund (the "Fund"), including the portfolio of investments, as of December 31, 2005, the related statement of operations for the year then ended and the statements of changes in net assets and the financial highlights for the periods presented. These financial statements and financial highlights are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and financial highlights are free of material misstatement. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. Our procedures included confirmation of securities owned as of December 31, 2005, by correspondence with the Fund's custodian and broker. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the Fund as of December 31, 2005, the results of its operations, the changes in its net assets, and the financial highlights for the respective stated periods, in conformity with accounting principles generally accepted in the United States of America.

DIVIDEND REINVESTMENT PLAN

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

If your Common Shares are registered directly with the Fund or if you hold your Common Shares with a brokerage firm that participates in the Fund's Dividend Reinvestment Plan (the "Plan"), unless you elect by written notice to the Fund, to receive cash distributions, all dividends, including any capital gain distributions, on your Common Shares will be automatically reinvested by PFPC Inc. (the "Plan Agent"), in additional Common Shares under the Plan. If you elect to receive cash distributions, you will receive all distributions in cash paid by check mailed directly to you by PFPC Inc., as dividend paying agent.

If you decide to participate in the Plan, the number of Common Shares you will receive will be determined as follows:

- (1) If the Common Shares are trading at or above net asset value ("NAV") at the time of valuation, the Fund will issue new shares at a price equal to the greater of (i) NAV per Common Share on that date or (ii) 95% of the market price on that date.
- (2) If Common Shares are trading below NAV at the time of valuation, the Plan Agent will receive the dividend or distribution in cash and will purchase Common Shares in the open market, on the American Stock Exchange or elsewhere, for the participants' accounts. It is possible that the market price for the Common Shares may increase before the Plan Agent has completed its purchases. Therefore, the average purchase price per share paid by the Plan Agent may exceed the market price at the time of valuation, resulting in the purchase of fewer shares than if the dividend or distribution had been paid in Common Shares issued by the Fund. The Plan Agent will use all dividends and distributions received in cash to purchase Common Shares in the open market within 30 days of the valuation date except where temporary curtailment or suspension of purchases is necessary to comply with federal securities laws. Interest will not be paid on any uninvested cash payments.

You may elect to opt-out of or withdraw from the Plan at any time by giving written notice to the Plan Agent, or by telephone at (800) 331-1710, in accordance with such reasonable requirements as the Plan Agent and Fund may agree upon. If you withdraw or the Plan is terminated, you will receive a certificate for each whole share in your account under the Plan, and you will receive a cash payment for any fraction of a share in your account. If you wish, the Plan Agent will sell your shares and send you the proceeds, minus brokerage commissions.

The Plan Agent maintains all Common Shareholders' accounts in the Plan and gives written confirmation of all transactions in the accounts, including information you may need for tax records. Common Shares in your account will be held by the Plan Agent in non-certificated form. The Plan Agent will forward to each participant any proxy solicitation material and will vote any shares so held only in accordance with proxies returned to the Fund. Any proxy you receive will include all Common Shares you have received under the Plan.

There is no brokerage charge for reinvestment of your dividends or distributions in Common Shares. However, all participants will pay a pro rata share of brokerage commissions incurred by the Plan Agent when it makes open market purchases.

Automatically reinvesting dividends and distributions does not mean that you do not have to pay income taxes due upon receiving dividends and distributions. Capital gains and income are realized, although cash is not received by you. Consult your financial advisor for more information.

If you hold your Common Shares with a brokerage firm that does not participate

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

in the Plan, you will not be able to participate in the Plan and any dividend reinvestment may be effected on different terms than those described above.

The Fund reserves the right to amend or terminate the Plan if in the judgment of the Board of Trustees the change is warranted. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants. Additional information about the Plan may be obtained by writing PFPC Inc., 301 Bellevue Parkway, Wilmington, Delaware 19809.

As part of these services, the Adviser has full responsibility for proxy voting and related duties. In fulfilling these duties, the Adviser and Funds have adopted the following policies and procedures:

1. It is the Adviser's policy to seek to ensure that proxies for securities held by a Fund are voted consistently and solely in the best economic interests of the respective Fund.

1. OPERATIONAL ITEMS

ADJOURN MEETING

Generally vote AGAINST proposals to provide management with the authority to adjourn an annual or special meeting absent compelling reasons to support the proposal.

Vote FOR proposals that relate specifically to soliciting votes for a merger or transaction if supporting that merger or transaction. Vote AGAINST proposals if the wording is too vague or if the proposal includes "other business."

AMEND QUORUM REQUIREMENTS

Vote AGAINST proposals to reduce quorum requirements for shareholder meetings below a majority of the shares outstanding unless there are compelling reasons to support the proposal.

AMEND MINOR BYLAWS

Vote FOR bylaw or charter changes that are of a housekeeping nature (updates or corrections).

CHANGE COMPANY NAME

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

Vote FOR proposals to change the corporate name.

CHANGE DATE, TIME, OR LOCATION OF ANNUAL MEETING

Vote FOR management proposals to change the date/time/location of the annual meeting unless the proposed change is unreasonable.

Vote AGAINST shareholder proposals to change the date/time/location of the annual meeting unless the current scheduling or location is unreasonable.

RATIFYING AUDITORS

Vote FOR proposals to ratify auditors, unless any of the following apply:

- o There is reason to believe that the independent auditor has rendered an opinion which is neither accurate nor indicative of the company's financial position, or
- o Fees for non-audit services ("Other" fees) are excessive.

Non-audit fees are excessive if:

Non-audit ("other") fees > audit fees + audit-related fees + tax compliance/preparation fees

Tax compliance and preparation include the preparation of original and amended tax returns, refund claims and tax payment planning. All other services in the tax category, such as tax advice, planning or consulting should be added to "Other" fees. If the breakout of tax fees cannot be determined, add all tax fees to "Other" fees.

Vote CASE-BY-CASE on shareholder proposals asking companies to prohibit or limit their auditors from engaging in non-audit services.

Vote CASE-BY-CASE on shareholder proposals asking for audit firm rotation, taking into account the tenure of the audit firm, the length of rotation specified in the proposal, any significant audit-related issues at the company, the number of Audit Committee meetings held each year, the number of financial experts serving on the committee, and whether the company has a periodic renewal process where the auditor is evaluated for both audit quality and competitive price.

TRANSACT OTHER BUSINESS

- o Party to a voting agreement to vote in line with management on proposals being brought to shareholder vote;
- o Has (or a relative has) an interlocking relationship as defined by the SEC involving members of the board of directors or its Compensation and Stock Option Committee; 6
- o Founder 7 of the company but not currently an employee;
- o Is (or a relative is) a trustee, director or employee of a charitable or non-profit organization that receives grants or endowments 5 from the company or its affiliates. 1

INDEPENDENT OUTSIDE DIRECTOR (IO)

- o No material 8 connection to the company other than a board seat.

FOOTNOTES:

- 1 "Affiliate" includes a subsidiary, sibling company, or parent company. ISS uses 50 percent control ownership by the parent company as the standard for applying its affiliate designation.
- 2 "Executives" (officers subject to Section 16 of the Securities and Exchange Act of 1934) include the chief executive, operating, financial, legal, technology, and accounting officers of a company (including the president, treasurer, secretary, controller, or any vice president in charge of a principal business unit, division or policy function).
- 3 ISS will look at the terms of the interim CEO's employment contract to determine if it contains severance pay, long-term health and pension benefits or other such standard provisions typically contained in contracts of permanent, non-temporary CEOs. ISS will also consider if a formal search process was underway for a full-time CEO at the time.

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

- 4 "Relative" follows the NYSE definition of "immediate family members" which covers: spouses, parents, children, siblings, in-laws, and anyone sharing the director's home.
- 5 If the company makes or receives annual payments exceeding the greater of \$200,000 or five percent of the recipient's gross revenues. (The recipient is the party receiving the financial proceeds from the transaction).
- 6 Interlocks include: (a) executive officers serving as directors on each other's compensation or similar committees (or, in the absence of such a committee, on the board) or (b) executive officers sitting on each other's boards and at least one serves on the other's compensation or similar committees (or, in the absence of such a committee, on the board).
- 7 The operating involvement of the Founder with the company will be considered. Little to no operating involvement may cause ISS to deem the Founder as an independent outsider.
- 8 For purposes of ISS' director independence classification, "material" will be defined as a standard of relationship (financial, personal or otherwise) that a reasonable person might conclude could potentially influence one's objectivity in the boardroom in a manner that would have a meaningful impact on an individual's ability to satisfy requisite fiduciary standards on behalf of shareholders.

AGE LIMITS

Vote AGAINST shareholder or management proposals to limit the tenure of outside directors through mandatory retirement ages.

BOARD SIZE

Vote FOR proposals seeking to fix the board size or designate a range for the board size. Vote AGAINST proposals that give management the ability to alter the size of the board outside of a specified range without shareholder approval.

CLASSIFICATION/DECLASSIFICATION OF THE BOARD

Vote AGAINST proposals to classify the board.

Vote FOR proposals to repeal classified boards and to elect all directors annually.

CUMULATIVE VOTING

Generally vote AGAINST proposals to eliminate cumulative voting. Vote CASE-BY-CASE if the company has in place one of the three corporate governance structures that are listed below.

Vote CASE-BY-CASE on proposals to restore or permit cumulative voting. If one of these three structures is present, vote AGAINST the proposal:

- o the presence of a majority threshold voting standard;
- o a proxy access provision in the company's bylaws or governance documents; or
- o a counterbalancing governance structure coupled with acceptable relative performance.

The counterbalancing governance structure coupled with acceptable relative

performance should include all of the following:

- o Annually elected board;
- o Two-thirds of the board composed of independent directors;
- o Nominating committee composed solely of independent directors;
- o Confidential voting; however, there may be a provision for suspending confidential voting during proxy contests;
- o Ability of shareholders to call special meetings or act by written consent with 90 days' notice;
- o Absence of superior voting rights for one or more classes of stock;
- o Board does not have the right to change the size of the board beyond a stated range that has been approved by shareholders;
- o The company has not under-performed its peers and index on a one-year and three-year basis, unless there has been a change in the CEO position within the last three years;

- o No director received WITHHOLD votes of 35% or more of the votes cast in the previous election.

DIRECTOR AND OFFICER INDEMNIFICATION AND LIABILITY PROTECTION

Vote CASE-BY-CASE on proposals on director and officer indemnification and liability protection using Delaware law as the standard.

Vote AGAINST proposals to eliminate entirely directors' and officers' liability for monetary damages for violating the duty of care.

Vote AGAINST indemnification proposals that would expand coverage beyond just legal expenses to acts, such as negligence, that are more serious violations of fiduciary obligation than mere carelessness.

Vote FOR only those proposals providing such expanded coverage in cases when a director's or officer's legal defense was unsuccessful if both of the following apply:

- o The director was found to have acted in good faith and in a manner that he reasonably believed was in the best interests of the company; and
- o If only the director's legal expenses would be covered.

ESTABLISH/AMEND NOMINEE QUALIFICATIONS

Vote CASE-BY-CASE on proposals that establish or amend director qualifications. Votes should be based on how reasonable the criteria are and to what degree they may preclude dissident nominees from joining the board.

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

Vote AGAINST shareholder proposals requiring two candidates per board seat.

FILLING VACANCIES/REMOVAL OF DIRECTORS

Vote AGAINST proposals that provide that directors may be removed only for cause.

Vote FOR proposals to restore shareholders' ability to remove directors with or without cause.

Vote AGAINST proposals that provide that only continuing directors may elect replacements to fill board vacancies.

Vote FOR proposals that permit shareholders to elect directors to fill board vacancies.

INDEPENDENT CHAIR (SEPARATE CHAIR/CEO)

Generally vote FOR shareholder proposals requiring the position of chair be filled by an independent director unless there are compelling reasons to recommend against the proposal, such as a counterbalancing governance structure. This should include all of the following:

- o Designated lead director, elected by and from the independent board members with clearly delineated and comprehensive duties. (The role may alternatively reside with a presiding director, vice chairman, or rotating lead director; however the director must serve a minimum of one year in order to qualify as a lead director.) At a minimum these should include:
 - Presides at all meetings of the board at which the chairman is not present, including executive sessions of the independent directors,
 - Serves as liaison between the chairman and the independent directors,
 - Approves information sent to the board,
 - Approves meeting agendas for the board,
 - Approves meetings schedules to assure that there is sufficient time for discussion of all agenda items,

- Has the authority to call meetings of the independent directors,
 - If requested by major shareholders, ensures that he is available for consultation and direct communication;
 - o Two-thirds independent board;
 - o All-independent key committees;

- o Established governance guidelines;
- o The company does not under-perform its peers.

MAJORITY OF INDEPENDENT DIRECTORS/ESTABLISHMENT OF COMMITTEES

Vote FOR shareholder proposals asking that a majority or more of directors be independent unless the board composition already meets the proposed threshold by ISS's definition of independence.

Vote FOR shareholder proposals asking that board audit, compensation, and/or nominating committees be composed exclusively of independent directors if they currently do not meet that standard.

MAJORITY VOTE SHAREHOLDER PROPOSALS

Generally vote FOR reasonably crafted shareholders proposals calling for directors to be elected with an affirmative majority of votes cast and/or the elimination of the plurality standard for electing directors (including binding resolutions requesting that the board amend the company's bylaws), provided the proposal includes a carve-out for a plurality voting standard when there are more director nominees than board seats (e.g. contested elections).

Consider voting AGAINST the shareholder proposal if the company has adopted formal corporate governance principles that present a meaningful alternative to the majority voting standard and provide an adequate response to both new nominees as well as incumbent nominees who fail to receive a majority of votes cast.

Policies should address the specific circumstances at each company. At a minimum, a company's policy should articulate the following elements to adequately address each director nominee who fails to receive an affirmative of majority of votes cast in an election:

- o Established guidelines disclosed annually in the proxy statement concerning the process to follow for nominees who receive majority withhold votes;
- o The policy needs to outline a clear and reasonable timetable for all decision-making regarding the nominee's status;
- o The policy needs to specify that the process of determining the nominee's status will be managed by independent directors and must exclude the nominee in question;
- o An outline of a range of remedies that can be considered concerning the nominee needs to be in the policy (for example, acceptance of the resignation, maintaining the director but curing the underlying causes of the withheld votes, etc.);
- o The final decision on the nominee's status should be promptly disclosed via an SEC filing. The policy needs to include the timeframe in which the decision will be disclosed and a full explanation of how the decision was reached.

In addition, the company should articulate to shareholders why this alternative to a full majority threshold voting standard is the best structure at this time for demonstrating accountability to shareholders. Also evaluate the company's history of accountability to shareholders in its governance structure and in its actions. In particular, a classified board structure or a history of ignoring majority supported shareholder proposals will be considered at a company which receives a shareholder proposal requesting the elimination of plurality voting

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

in favor of majority threshold for electing directors.

OFFICE OF THE BOARD

Generally vote FOR shareholders proposals requesting that the board establish an Office of the Board of Directors in order to facilitate direct communications between shareholders and non-management directors, unless the company has all of the following:

- o Established a communication structure that goes beyond the exchange requirements to facilitate the exchange of information between shareholders and members of the board;
- o Effectively disclosed information with respect to this structure to its shareholders;
- o Company has not ignored majority supported shareholder proposals or a majority WITHHOLD on a director nominee; and
- o The company has an independent chairman or a lead/presiding director, according to ISS' definition. This individual must be made available for periodic consultation and direct communication with major shareholders.

OPEN ACCESS

Generally vote FOR reasonably crafted shareholder proposals providing shareholders with the ability to nominate director candidates to be included on management's proxy card, provided the proposal substantially mirrors the SEC's proposed two-trigger formulation (see the proposed "Security Holder Director Nominations" rule ([HTTP://WWW.SEC.GOV/RULES/PROPOSED/34-48626.HTM](http://www.sec.gov/rules/proposed/34-48626.htm)) or ISS' comment letter to the SEC dated 6/13/2003, available on ISS website under Governance Center- ISS Position Papers).

STOCK OWNERSHIP REQUIREMENTS

Generally vote AGAINST shareholder proposals that mandate a minimum amount of stock that directors must own in order to qualify as a director or to remain on the board. While stock ownership on the part of directors is desired, the company should determine the appropriate ownership requirement.

Vote CASE-BY-CASE on shareholder proposals asking that the company adopt a holding or retention period for its executives (for holding stock after the vesting or exercise of equity awards), taking into account any stock ownership requirements or holding period/retention ratio already in place and the actual ownership level of executives.

TERM LIMITS

Vote AGAINST shareholder or management proposals to limit the tenure of outside directors through term limits. However, scrutinize boards where the average tenure of all directors exceeds 15 years for independence from management and for sufficient turnover to ensure that new perspectives are being added to the board.

3. PROXY CONTESTS

VOTING FOR DIRECTOR NOMINEES IN CONTESTED ELECTIONS

Vote CASE-BY-CASE on the election of directors in contested elections, considering the following factors:

- o Long-term financial performance of the target company relative to its industry;
- o Management's track record;
- o Background to the proxy contest;
- o Qualifications of director nominees (both slates);
- o Strategic plan of dissident slate and quality of critique against management;
- o Likelihood that the proposed goals and objectives can be achieved (both slates);
- o Stock ownership positions.

Vote CASE-BY-CASE on proposals to reimburse proxy solicitation expenses. When voting in conjunction with support of a dissident slate, vote FOR the reimbursement of all appropriate proxy solicitation expenses associated with the election.

CONFIDENTIAL VOTING

Vote FOR shareholder proposals requesting that corporations adopt confidential voting, use independent vote tabulators, and use independent inspectors of election, as long as the proposal includes a provision for proxy contests as follows: In the case of a contested election, management should be permitted to request that the dissident group honor its confidential voting policy. If the dissidents agree, the policy remains in place. If the dissidents will not agree, the confidential voting policy is waived.

4. ANTITAKEOVER DEFENSES AND VOTING RELATED ISSUES

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

ADVANCE NOTICE REQUIREMENTS FOR SHAREHOLDER PROPOSALS/NOMINATIONS

Votes on advance notice proposals are determined on a CASE-BY-CASE basis, giving support to those proposals which allow shareholders to submit proposals as close to the meeting date as reasonably possible and within the broadest window possible.

AMEND BYLAWS WITHOUT SHAREHOLDER CONSENT

Vote AGAINST proposals giving the board exclusive authority to amend the bylaws.

Vote FOR proposals giving the board the ability to amend the bylaws in addition to shareholders.

POISON PILLS

Vote FOR shareholder proposals requesting that the company submit its poison pill to a shareholder vote or redeem it UNLESS the company has: (1) A shareholder approved poison pill in place; or (2) The company has adopted a policy concerning the adoption of a pill in the future specifying that the board will only adopt a shareholder rights plan if either:

- o Shareholders have approved the adoption of the plan; or
- o The board, in its exercise of its fiduciary responsibilities, determines that it is in the best interest of shareholders under the circumstances to adopt a pill without the delay in adoption that would result from seeking stockholder approval (i.e. the "fiduciary out" provision). A poison pill adopted under this fiduciary out will be put to a shareholder ratification vote within twelve months of adoption or expire. If the pill is not approved by a majority of the votes cast on this issue, the plan will immediately terminate.

Vote FOR shareholder proposals calling for poison pills to be put to a vote within a time period of less than one year after adoption. If the company has no non-shareholder approved poison pill in place and has adopted a policy with the provisions outlined above, vote AGAINST the proposal. If these conditions are not met, vote FOR the proposal, but with the caveat that a vote within twelve months would be considered sufficient.

Vote CASE-by-CASE on management proposals on poison pill ratification, focusing on the features of the shareholder rights plan. Rights plans should contain the following attributes:

- o No lower than a 20% trigger, flip-in or flip-over;
- o A term of no more than three years;
- o No dead-hand, slow-hand, no-hand or similar feature that limits the ability of a future board to redeem the pill;
- o Shareholder redemption feature (qualifying offer clause); if the board refuses to redeem the pill 90 days after a qualifying offer is announced, ten percent of the shares may call a special meeting or seek a written consent to vote on rescinding the pill.

SHAREHOLDER ABILITY TO ACT BY WRITTEN CONSENT

Vote AGAINST proposals to restrict or prohibit shareholder ability to take action by written consent.

Vote FOR proposals to allow or make easier shareholder action by written

consent.

SHAREHOLDER ABILITY TO CALL SPECIAL MEETINGS

Vote AGAINST proposals to restrict or prohibit shareholder ability to call special meetings.

Vote FOR proposals to lower supermajority vote requirements.

5. MERGERS AND CORPORATE RESTRUCTURINGS
OVERALL APPROACH

For mergers and acquisitions, review and evaluate the merits and drawbacks of the proposed transaction, balancing various and sometimes countervailing factors including:

- o VALUATION - Is the value to be received by the target shareholders (or paid by the acquirer) reasonable? While the fairness opinion may provide an initial starting point for assessing valuation reasonableness, emphasis is placed on the offer premium, market reaction and strategic rationale.
- o MARKET REACTION - How has the market responded to the proposed deal? A negative market reaction should cause closer scrutiny of a deal.
- o STRATEGIC RATIONALE - Does the deal make sense strategically? From where is the value derived? Cost and revenue synergies should not be overly aggressive or optimistic, but reasonably achievable. Management should also have a favorable track record of successful integration of historical acquisitions.
- o NEGOTIATIONS AND PROCESS - Were the terms of the transaction negotiated at arm's-length? Was the process fair and equitable? A fair process helps to ensure the best price for shareholders. Significant negotiation "wins" can also signify the deal makers' competency. The comprehensiveness of the sales process (e.g., full auction, partial auction, no auction) can also affect shareholder value.
- o CONFLICTS OF INTEREST - Are insiders benefiting from the transaction disproportionately and inappropriately as compared to non-insider shareholders? As the result of potential conflicts, the directors and officers of the company may be more likely to vote to approve a merger than if they did not hold these interests. Consider whether these interests may have influenced these directors and officers to support or recommend the merger. The CIC figure presented in the "ISS Transaction Summary" section of this report is an aggregate

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

figure that can in certain cases be a misleading indicator of the true value transfer from shareholders to insiders. Where such figure appears to be excessive, analyze the underlying assumptions to determine whether a potential conflict exists.

- o GOVERNANCE - Will the combined company have a better or worse governance profile than the current governance profiles of the respective parties to the transaction? If the governance profile is to change for the worse, the burden is on the company to prove that other issues (such as valuation) outweigh any deterioration in governance.

APPRAISAL RIGHTS

ASSET PURCHASES

Vote CASE-BY-CASE on asset purchase proposals, considering the following factors:

- o Purchase price;

- o Cash-out value;
- o Whether the interests of continuing and cashed-out shareholders are balanced; and
- o The market reaction to public announcement of transaction.

6. STATE OF INCORPORATION

CONTROL SHARE ACQUISITION PROVISIONS

Control share acquisition statutes function by denying shares their voting rights when they contribute to ownership in excess of certain thresholds. Voting rights for those shares exceeding ownership limits may only be restored by approval of either a majority or supermajority of disinterested shares. Thus, control share acquisition statutes effectively require a hostile bidder to put its offer to a shareholder vote or risk voting disenfranchisement if the bidder continues buying up a large block of shares.

Vote FOR proposals to opt out of control share acquisition statutes unless doing so would enable the completion of a takeover that would be detrimental to shareholders.

Vote AGAINST proposals to amend the charter to include control share acquisition provisions.

Vote FOR proposals to restore voting rights to the control shares.

CONTROL SHARE CASH-OUT PROVISIONS

Control share cash-out statutes give dissident shareholders the right to "cash-out" of their position in a company at the expense of the shareholder who has taken a control position. In other words, when an investor crosses a preset threshold level, remaining shareholders are given the right to sell their shares to the acquirer, who must buy them at the highest acquiring price.

Vote FOR proposals to opt out of control share cash-out statutes.

DISGORGEMENT PROVISIONS

Disgorgement provisions require an acquirer or potential acquirer of more than a certain percentage of a company's stock to disgorge, or pay back, to the company any profits realized from the sale of that company's stock purchased 24 months

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

before achieving control status. All sales of company stock by the acquirer occurring within a certain period of time (between 18 months and 24 months) prior to the investor's gaining control status are subject to these recapture-of-profits provisions.

Vote FOR proposals to opt out of state disgorgement provisions.

FAIR PRICE PROVISIONS

Vote CASE-BY-CASE on proposals to adopt fair price provisions (provisions that stipulate that an acquirer must pay the same price to acquire all shares as it paid to acquire the control shares), evaluating factors such as the vote required to approve the proposed acquisition, the vote required to repeal the fair price provision, and the mechanism for determining the fair price.

Generally, vote AGAINST fair price provisions with shareholder vote requirements greater than a majority of disinterested shares.

FREEZE-OUT PROVISIONS

Vote FOR proposals to opt out of state freeze-out provisions. Freeze-out provisions force an investor who surpasses a certain ownership threshold in a company to wait a specified period of time before gaining control of the company.

GREENMAIL

Greenmail payments are targeted share repurchases by management of company stock from individuals or groups seeking control of the company. Since only the hostile party receives

In addition, for capital requests less than or equal to 300 percent of the current authorized shares that marginally fail the calculated allowable cap (i.e., exceed the allowable cap by no more than 5 percent), on a CASE-BY-CASE basis, vote FOR the increase based on the company's performance and whether the company's ongoing use of shares has shown prudence. Factors should include, at a minimum, the following:

- o Rationale;
- o Good performance with respect to peers and index on a five-year total shareholder return basis;
- o Absence of non-shareholder approved poison pill;
- o Reasonable equity compensation burn rate;

ISSUE STOCK FOR USE WITH RIGHTS PLAN

Vote AGAINST proposals that increase authorized common stock for the explicit purpose of implementing a non-shareholder approved shareholder rights plan (poison pill).

SHARE REPURCHASE PROGRAMS

Vote FOR management proposals to institute open-market share repurchase plans in which all shareholders may participate on equal terms.

STOCK DISTRIBUTIONS: SPLITS AND DIVIDENDS

Vote FOR management proposals to increase the common share authorization for a stock split or share dividend, provided that the increase in authorized shares would not result in an excessive number of shares available for issuance as determined using a model developed by ISS.

TRACKING STOCK

Vote CASE-BY-CASE on the creation of tracking stock, weighing the strategic value of the transaction against such factors as:

- o Adverse governance changes;
- o Excessive increases in authorized capital stock;
- o Unfair method of distribution;
- o Diminution of voting rights;
- o Adverse conversion features;
- o Negative impact on stock option plans; and

8. EXECUTIVE AND DIRECTOR COMPENSATION

EQUITY COMPENSATION PLANS

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

Vote CASE-BY-CASE on equity-based compensation plans. Vote AGAINST the equity plan if any of the following factors apply:

- o The total cost of the company's equity plans is unreasonable;
- o The plan expressly permits the repricing of stock options without prior shareholder approval;
- o There is a disconnect between CEO pay and the company's performance;
- o The company's three year burn rate exceeds the greater of 2% and the mean plus 1 standard deviation of its industry group; or
- o The plan is a vehicle for poor pay practices.

Each of these factors is further described below:

COST OF EQUITY PLANS

Generally, vote AGAINST equity plans if the cost is unreasonable. For non-employee director plans, vote FOR the plan if certain factors are met (see Director Compensation section).

The cost of the equity plans is expressed as Shareholder Value Transfer (SVT), which is measured using a binomial option pricing model that assesses the amount of shareholders' equity flowing out of the company to employees and directors. SVT is expressed as both a dollar amount and as a percentage of market value, and includes the new shares proposed, shares available under existing plans, and shares granted but unexercised. All award types are valued. For omnibus plans, unless limitations are placed on the most expensive types of awards (for example, full value awards), the assumption is made that all awards to be granted will be the most expensive types. See discussion of specific types of awards.

The Shareholder Value Transfer is reasonable if it falls below the company-specific allowable cap. The allowable cap is determined as follows: The top quartile performers in each industry group (using the Global Industry Classification Standard GICS) are identified. Benchmark SVT levels for each industry are established based on these top performers' historic SVT. Regression analyses are run on each industry group to identify the variables most strongly correlated to SVT. The benchmark industry SVT level is then adjusted upwards or downwards for the specific company by plugging the company-specific performance measures, size and cash compensation into the industry cap equations to arrive at the company's allowable cap.

REPRICING PROVISIONS

Vote AGAINST plans that expressly permit the repricing of stock options without prior shareholder approval, even if the cost of the plan is reasonable.

Vote AGAINST plans if the company has a history of repricing options without shareholder approval, and the applicable listing standards would not preclude them from doing so.

PAY-FOR PERFORMANCE DISCONNECT

Generally vote AGAINST plans in which:

- o there is a disconnect between the CEO's pay and company performance (an increase in pay and a decrease in performance);

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

- o the main source of the pay increase (over half) is equity-based, and
- o the CEO is a participant of the equity proposal.

24

=====
Performance decreases are based on negative one- and three-year total shareholder returns. CEO pay increases are based on the CEO's total direct compensation (salary, cash bonus, present value of stock options, face value of restricted stock, face value of long-term incentive plan payouts, and all other compensation) increasing over the previous year.

WITHHOLD votes from the Compensation Committee members when the company has a pay for performance disconnect.

On a CASE-BY-CASE basis, vote for equity plans and FOR compensation committee members with a pay-for-performance disconnect if compensation committee members can present strong and compelling evidence of improved committee performance. This evidence must go beyond the usual compensation committee report disclosure. This additional evidence necessary includes all of the following:

- o The compensation committee has reviewed all components of the CEO's compensation, including the following:
 - Base salary, bonus, long-term incentives;
 - Accumulative realized and unrealized stock option and restricted stock gains;
 - Dollar value of perquisites and other personal benefits to the CEO and the total cost to the company;
 - Earnings and accumulated payment obligations under the company's nonqualified deferred compensation program;
 - Actual projected payment obligations under the company's supplemental executive retirement plan (SERPs).

A tally sheet setting forth all the above components was prepared and reviewed affixing dollar amounts under the various payout scenarios. (A complete breakdown of pay components also can be found in Disclosure of CEO Compensation - Tally Sheet.)

- o A tally sheet with all the above components should be disclosed for the following termination scenarios:
 - Payment if termination occurs within 12 months: \$_____;
 - Payment if "not for cause" termination occurs within 12 months: \$_____;
 - Payment if "change of control" termination occurs within 12 months: \$_____.
- o The compensation committee is committed to providing additional information on the named executives' annual cash bonus program

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

and/or long-term incentive cash plan for the current fiscal year. The compensation committee will provide full disclosure of the qualitative and quantitative performance criteria and hurdle rates used to determine the payouts of the cash program. From this disclosure, shareholders will know the minimum level of performance required for any cash bonus to be delivered, as well as the maximum cash bonus payable for superior performance.

The repetition of the compensation committee report does not meet ISS' requirement of compelling and strong evidence of improved disclosure. The level of transparency and disclosure is at the highest level where shareholders can understand the mechanics of the annual cash bonus and/or long-term incentive cash plan based on the additional disclosure.

- o The compensation committee is committed to granting a substantial portion of performance-based equity awards to the named executive officers. A substantial portion of performance-based awards would be at least 50 percent of the shares awarded to each of the named executive officers. Performance-based equity awards are earned or paid out based on the achievement of company performance targets. The company will disclose the details of the performance criteria (e.g., return on equity) and the hurdle

=====

=====

rates (e.g., 15 percent) associated with the performance targets. From this disclosure, shareholders will know the minimum level of performance required for any equity grants to be made. The performance-based equity awards do not refer to non-qualified stock options 1 or performance-accelerated grants. 2 Instead, performance-based equity awards are performance-contingent grants where the individual will not receive the equity grant by not meeting the target performance and vice versa.

The level of transparency and disclosure is at the highest level where shareholders can understand the mechanics of the performance-based equity awards based on the additional disclosure.

- o The compensation committee has the sole authority to hire and fire outside compensation consultants. The role of the outside compensation consultant is to assist the compensation committee to analyze executive pay packages or contracts and understand the company's financial measures.

THREE-YEAR BURN RATE/BURN RATE COMMITMENT

Generally vote AGAINST plans if the company's most recent three-year burn rate exceeds one standard deviation in excess of the industry mean (per the following Burn Rate Table) and is over two percent of common shares outstanding. The three-year burn rate policy does not apply to non-employee director plans unless outside directors receive a significant portion of shares each year.

However, vote FOR equity plans if the company fails this burn rate test but the company commits in a public filing to a three-year average burn rate equal to its GICS group burn rate mean plus one standard deviation, assuming all other conditions for voting FOR the plan have been met. If a company fails to fulfill

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

its burn rate commitment, vote to WITHHOLD from the compensation committee.

-
- 1 Non-qualified stock options are not performance-based awards unless the grant or the vesting of the stock options is tied to the achievement of a pre-determined and disclosed performance measure. A rising stock market will generally increase share prices of all companies, despite of the company's underlying performance.
 - 2 Performance-accelerated grants are awards that vest earlier based on the achievement of a specified measure. However, these grants will ultimately vest over time even without the attainment of the goal(s).

POOR PAY PRACTICES

Vote AGAINST equity plans if the plan is a vehicle for poor compensation practices.

WITHOLD from compensation committee members if the company has poor compensation practices.

Poor compensation practices include, but are not limited to, the following:

- o Egregious employment contracts including excessive severance provisions;
- o Excessive perks that dominate compensation;
- o Huge bonus payouts without justifiable performance linkage;
- o Performance metrics that are changed during the performance period;
- o Egregious SERP (Supplemental Executive Retirement Plans) payouts;
- o New CEO with overly generous hiring package;

- =====
- o Internal pay disparity;
 - o Other excessive compensation payouts or poor pay practices at the company.

SPECIFIC TREATMENT OF CERTAIN AWARD TYPES IN EQUITY PLAN EVALUATIONS:

DIVIDEND EQUIVALENT RIGHTS

Equity plans that have Dividend Equivalent Rights (DERs) associated with them will have a higher calculated award value than those without DERs under the binomial model, based on the value of these dividend streams. The higher value will be applied to new shares, shares available under existing plans, and shares awarded but not exercised per the plan specifications. DERS transfer more shareholder equity to employees and non-employee directors and this cost should be captured.

LIBERAL SHARE RECYCLING PROVISIONS

Under net share counting provisions, shares tendered by an option holder to pay for the exercise of an option, shares withheld for taxes or shares repurchased by the company on the open market can be recycled back into the equity plan for awarding again. All awards with such provisions should be valued as full-value awards. Stock-settled stock appreciation rights (SSARs) will also be considered as full-value awards if a company counts only the net shares issued to employees towards their plan reserve.

TRANSFERABLE STOCK OPTION AWARDS

For transferable stock option award types within a new equity plan, calculate the cost of the awards by setting their forfeiture rate to zero when comparing to the allowable cap. In addition, in order to vote FOR plans with such awards, the structure and mechanics of the ongoing transferable stock option program must be disclosed to shareholders; and amendments to existing plans that allow for introduction of transferability of stock options should make clear that only options granted post-amendment shall be transferable.

OTHER COMPENSATION PROPOSALS AND POLICIES

401(K) EMPLOYEE BENEFIT PLANS

Vote FOR proposals to implement a 401(k) savings plan for employees.

DIRECTOR COMPENSATION

Vote CASE-BY-CASE on compensation plans for non-employee directors, based on the cost of the plans against the company's allowable cap.

On occasion, director stock plans that set aside a relatively small number of shares when combined with employee or executive stock compensation plans exceed the allowable cap. Vote for the plan if ALL of the following qualitative factors in the board's compensation are met and disclosed in the proxy statement:

- o Director stock ownership guidelines with a minimum of three times the annual cash retainer.
- o Vesting schedule or mandatory holding/deferral period:

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

- A minimum vesting of three years for stock options or restricted stock; or
- Deferred stock payable at the end of a three-year deferral period.
- o Mix between cash and equity:
 - A balanced mix of cash and equity, for example 40% cash/60% equity or 50% cash/50% equity; or

=====
 (C) 2005 Institutional Shareholder Services Inc. All Rights Reserved. 28
 =====

- If the mix is heavier on the equity component, the vesting schedule or deferral period should be more stringent, with the lesser of five years or the term of directorship.
- o No retirement/benefits and perquisites provided to non-employee directors; and
- o Detailed disclosure provided on cash and equity compensation delivered to each non- employee director for the most recent fiscal year in a table. The column headers for the table may include the following: name of each non-employee director, annual retainer, board meeting fees, committee retainer, committee-meeting fees, and equity grants.

Vote AGAINST retirement plans for non-employee directors.

Vote FOR shareholder proposals to eliminate retirement plans for non-employee directors.

DISCLOSURE OF CEO COMPENSATION-TALLY SHEET

Encourage companies to provide better and more transparent disclosure related to CEO pay. Consider withhold votes in the future from the compensation committee and voting against equity plans if compensation disclosure is not improved and a tally sheet is not provided.

EMPLOYEE STOCK OWNERSHIP PLANS (ESOPs)

Vote FOR proposals to implement an ESOP or increase authorized shares for existing ESOPs, unless the number of shares allocated to the ESOP is excessive (more than five percent of outstanding shares).

EMPLOYEE STOCK PURCHASE PLANS-- QUALIFIED PLANS

Vote CASE-BY-CASE on qualified employee stock purchase plans. Vote FOR employee stock purchase plans where all of the following apply:

- o Purchase price is at least 85 percent of fair market value;
- o Offering period is 27 months or less; and
- o The number of shares allocated to the plan is ten percent or less of the outstanding shares.

(C) 2005 Institutional Shareholder Services Inc. All Rights Reserved. 30

Vote AGAINST qualified employee stock purchase plans where any of the following apply:

- o Purchase price is less than 85 percent of fair market value; or
- o Offering period is greater than 27 months; or

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

- o The number of shares allocated to the plan is more than ten percent of the outstanding shares.

EMPLOYEE STOCK PURCHASE PLANS-- NON-QUALIFIED PLANS

Vote CASE-by-CASE on nonqualified employee stock purchase plans. Vote FOR nonqualified employee stock purchase plans with all the following features:

- o Broad-based participation (i.e., all employees of the company with the exclusion of individuals with 5 percent or more of beneficial ownership of the company);
- o Limits on employee contribution, which may be a fixed dollar amount or expressed as a percent of base salary;
- o Company matching contribution up to 25 percent of employee's contribution, which is effectively a discount of 20 percent from market value;
- o No discount on the stock price on the date of purchase since there is a company matching contribution.

Vote AGAINST nonqualified employee stock purchase plans when any of the plan features do not meet the above criteria. If the company matching contribution exceeds 25 percent of employee's contribution, evaluate the cost of the plan against its allowable cap.

INCENTIVE BONUS PLANS AND TAX DEDUCTIBILITY PROPOSALS (OBRA-RELATED COMPENSATION PROPOSALS)

Vote FOR proposals that simply amend shareholder-approved compensation plans to include administrative features or place a cap on the annual grants any one participant may receive to comply with the provisions of Section 162(m).

Vote FOR proposals to add performance goals to existing compensation plans to comply with the provisions of Section 162(m) unless they are clearly inappropriate.

Vote CASE-BY-CASE on amendments to existing plans to increase shares reserved and to qualify for favorable tax treatment under the provisions of Section 162(m) as long as the plan does not exceed the allowable cap and the plan does not violate any of the supplemental policies.

Generally vote FOR cash or cash and stock bonus plans that are submitted to shareholders for the purpose of exempting compensation from taxes under the provisions of Section 162(m) if no increase in shares is requested.

OPTION EXCHANGE PROGRAMS/REPRICING OPTIONS

Vote CASE-by-CASE on management proposals seeking approval to exchange/reprice options taking into consideration:

- o Historic trading patterns;
- o Rationale for the repricing;
- o Value-for-value exchange;
- o Treatment of surrendered options;
- o Option vesting;

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

- o Term of the option;
- o Exercise price;
- o Participation.

=====
If the surrendered options are added back to the equity plans for re-issuance, then also take into consideration the company's three-year average burn rate.

Vote FOR shareholder proposals to put option repricings to a shareholder vote.

STOCK PLANS IN LIEU OF CASH

Vote CASE-by-CASE on plans which provide participants with the option of taking all or a portion of their cash compensation in the form of stock.

Vote FOR non-employee director only equity plans which provide a dollar-for-dollar cash for stock exchange.

Vote CASE-by-CASE on plans which do not provide a dollar-for-dollar cash for stock exchange. In cases where the exchange is not dollar-for-dollar, the request for new or additional shares for such equity program will be considered using the binomial option pricing model. In an effort to capture the total cost of total compensation, ISS will not make any adjustments to carve out the in-lieu-of cash compensation.

TRANSFER PROGRAMS OF STOCK OPTIONS

One-time Transfers: WITHHOLD votes from compensation committee members if they fail to submit one-time transfers for to shareholders for approval.

Vote CASE-BY-CASE on one-time transfers. Vote FOR if:

- o Executive officers and non-employee directors are excluded from participating;
- o Stock options are purchased by third-party financial institutions at a discount to their fair value using option pricing models such as Black-Scholes or a Binomial Option Valuation or other appropriate financial models;
- o There is a two-year minimum holding period for sale proceeds (cash or stock) for all participants.

Additionally, management should provide a clear explanation of why options are being transferred and whether the events leading up to the decline in stock price were beyond management's control. A review of the company's historic stock price volatility should indicate if the options are likely to be back "in-the-money" over the near term.

SHAREHOLDER PROPOSALS ON COMPENSATION

DISCLOSURE/SETTING LEVELS OR TYPES OF COMPENSATION FOR EXECUTIVES AND DIRECTORS

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

Generally, vote FOR shareholder proposals seeking additional disclosure of executive and director pay information, provided the information requested is relevant to shareholders' needs, would not put the company at a competitive disadvantage relative to its industry, and is not unduly burdensome to the company.

Vote AGAINST shareholder proposals seeking to set absolute levels on compensation or otherwise dictate the amount or form of compensation.

Vote AGAINST shareholder proposals requiring director fees be paid in stock only.

Vote CASE-BY-CASE on all other shareholder proposals regarding executive and director pay, taking into account company performance, pay level versus peers, pay level versus industry, and long term corporate outlook.

Vote FOR shareholder proposals to put option repricings to a shareholder vote.

PENSION PLAN INCOME ACCOUNTING

Generally vote FOR shareholder proposals to exclude pension plan income in the calculation of earnings used in determining executive bonuses/compensation.

PERFORMANCE-BASED AWARDS

Generally vote FOR shareholder proposals advocating the use of performance-based awards like indexed, premium-priced, and performance-vested options or performance-based shares, unless:

- o The proposal is overly restrictive (e.g., it mandates that awards to all employees must be performance-based or all awards to top executives must be a particular type, such as indexed options);
- o The company demonstrates that it is using a substantial portion of performance-based awards for its top executives, where substantial portion would constitute 50 percent of the shares awarded to those executives for that fiscal year.

SEVERANCE AGREEMENTS FOR EXECUTIVES/GOLDEN PARACHUTES

Vote FOR shareholder proposals to require golden parachutes or executive severance agreements to be submitted for shareholder ratification, unless the proposal requires shareholder approval prior to entering into employment contracts.

Vote on a CASE-BY-CASE basis on proposals to ratify or cancel golden parachutes.

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

An acceptable parachute should include, but is not limited to, the following:

- o The triggering mechanism should be beyond the control of management;
- o The amount should not exceed three times base amount (defined as the average annual taxable W-2 compensation during the five years prior to the year in which the change of control occurs;
- o Change-in-control payments should be double-triggered, i.e., (1) after a change in control has taken place, and (2) termination of the executive as a result of the change in control. Change in control is defined as a change in the company ownership structure.

SUPPLEMENTAL EXECUTIVE RETIREMENT PLANS (SERPS)

Generally vote FOR shareholder proposals requesting to put extraordinary benefits contained in SERP agreements to a shareholder vote unless the company's executive pension plans do not contain excessive benefits beyond what is offered under employee-wide plans.

- o The company is conducting animal testing when suitable alternatives are accepted and used at peer firms;
- o The company has been the subject of recent, significant controversy related to its testing programs.

Generally vote FOR proposals seeking a report on the company's animal welfare standards unless:

- o The company has already published a set of animal welfare standards and monitors compliance;
- o The company's standards are comparable to or better than those of peer firms; and
- o There are no serious controversies surrounding the company's treatment of animals.

DRUG PRICING

Generally vote AGAINST proposals requesting that companies implement specific price restraints on pharmaceutical products unless the company fails to adhere

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

to legislative guidelines or industry norms in its product pricing.

Vote CASE-BY-CASE on proposals requesting that the company evaluate their product pricing considering:

- o The existing level of disclosure on pricing policies;
- o Deviation from established industry pricing norms;
- o The company's existing initiatives to provide its products to needy consumers;
- o Whether the proposal focuses on specific products or geographic regions.

DRUG REIMPORTATION

Generally vote FOR proposals requesting that companies report on the financial and legal impact of their policies regarding prescription drug reimportation unless such information is already publicly disclosed.

Generally vote AGAINST proposals requesting that companies adopt specific policies to encourage or constrain prescription drug reimportation.

GENETICALLY MODIFIED FOODS

Vote AGAINST proposals asking companies to voluntarily label genetically engineered (GE) ingredients in their products or alternatively to provide interim labeling and eventually eliminate GE ingredients due to the costs and feasibility of labeling and/or phasing out the use of GE ingredients.

Vote CASE-BY-CASE on proposals asking for a report on the feasibility of labeling products containing GE ingredients taking into account:

- o The relevance of the proposal in terms of the company's business and the proportion of it affected by the resolution;

=====

=====

- o The quality of the company's disclosure on GE product labeling and related voluntary initiatives and how this disclosure compares with peer company disclosure;
- o Company's current disclosure on the feasibility of GE product labeling, including information on the related costs;
- o Any voluntary labeling initiatives undertaken or considered by the company.

Vote CASE-BY-CASE on proposals asking for the preparation of a report on the financial, legal, and environmental impact of continued use of GE ingredients/seeds. Evaluate the following:

- o The relevance of the proposal in terms of the company's business and the proportion of it affected by the resolution;

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

- o The quality of the company's disclosure on risks related to GE product use and how this disclosure compares with peer company disclosure;
- o The percentage of revenue derived from international operations, particularly in Europe, where GE products are more regulated and consumer backlash is more pronounced.

Vote AGAINST proposals seeking a report on the health and environmental effects of genetically modified organisms (GMOs). Health studies of this sort are better undertaken by regulators and the scientific community.

Vote AGAINST proposals to completely phase out GE ingredients from the company's products or proposals asking for reports outlining the steps necessary to eliminate GE ingredients from the company's products. Such resolutions presuppose that there are proven health risks to GE ingredients (an issue better left to federal regulators) that outweigh the economic benefits derived from biotechnology.

HANDGUNS

Generally vote AGAINST requests for reports on a company's policies aimed at curtailing gun violence in the United States unless the report is confined to product safety information. Criminal misuse of firearms is beyond company control and instead falls within the purview of law enforcement agencies.

HIV/AIDS

- o The nature and size of the company's operations in Sub-Saharan Africa and the number of local employees;
- o The company's existing healthcare policies, including benefits and healthcare access for local workers;
- o Company donations to healthcare providers operating in the region.

Vote AGAINST proposals asking companies to establish, implement, and report on a standard of response to the HIV/AIDS, TB, and malaria health pandemic in Africa and other developing countries, unless the company has significant operations in these markets and has failed to adopt policies and/or procedures to address these issues comparable to those of industry peers.

PREDATORY LENDING

Vote CASE-BY CASE on requests for reports on the company's procedures for preventing predatory lending, including the establishment of a board committee for oversight, taking into account:

- o Whether the company has adequately disclosed mechanisms in place to prevent abusive lending practices;

=====

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

- o Whether the company has adequately disclosed the financial risks of its subprime business;
- o Whether the company has been subject to violations of lending laws or serious lending controversies;
- o Peer companies' policies to prevent abusive lending practices.

TOBACCO

Most tobacco-related proposals should be evaluated on a CASE-BY-CASE basis, taking into account the following factors:

Second-hand smoke:

- o Whether the company complies with all local ordinances and regulations;
- o The degree that voluntary restrictions beyond those mandated by law might hurt the company's competitiveness;
- o The risk of any health-related liabilities.

Advertising to youth:

(A) (2) OTHER ACCOUNTS MANAGED BY PORTFOLIO MANAGER(S) OR MANAGEMENT TEAM MEMBER AND POTENTIAL CONFLICTS OF INTEREST

OTHER ACCOUNTS MANAGED BY PORTFOLIO MANAGER(S) OR MANAGEMENT TEAM MEMBER

The Investment Committee manages the investment vehicles with the number of accounts and assets, as of December 31, 2005, set forth in the table below:

TYPE OF INVESTMENT VEHICLE	NUMBER OF ACCOUNTS	TOT
----------------------------	--------------------	-----

Edgar Filing: FIRST TRUST VALUE LINE R 100 FUND - Form N-CSR

Registered Investment Companies	26
Other Pooled Investment Vehicles	0
Other Accounts	0

None of the accounts managed by the Investment Committee pay an advisory fee that is based upon the performance of the account. In addition, First Trust believes that there are no material conflicts of interest that may arise in connection with the Investment Committee's management of the registrant's investments and the investments of the other accounts managed by the Investment Committee. However, because the investment strategies of the registrant and other accounts managed by the Investment Committee are based on fairly mechanical investment processes, the Investment Committee may recommend that certain clients sell and other clients buy a given security at the same time. In addition, because the investment strategies of the registrant and other accounts managed by the Investment Committee result in the clients investing in readily available securities, First Trust believes that there should not be material conflicts in the allocation of investment opportunities between the registrant and other accounts managed by the Investment Committee.

(A) (3) COMPENSATION STRUCTURE OF PORTFOLIO MANAGER(S) OR MANAGEMENT TEAM MEMBERS

The compensation structure for each member of the Investment Committee is based upon a fixed salary as well as a discretionary bonus determined by the management of First Trust. Salaries are determined by management and are based upon an individual's position and overall value to the firm. Bonuses are also determined by management and are based upon an individual's overall contribution to the success of the firm and the profitability of the firm. Salaries and bonuses for members of the Investment Committee are not based upon criteria such as performance of the registrant or the value of assets of the registrant. In addition, Mr. Carey, Mr. Erickson and Mr. McGarel also have an indirect ownership stake in the firm and will therefore receive their allocable share of ownership related distributions.

(A) (4) DISCLOSURE OF SECURITIES OWNERSHIP

As of December 31, 2005, the Investment Committee held the following shares of the registrant:
